Transparency™, What is Transparency™? Transparency™ is a free tool designed to transform learning. If you are a teacher, Transparency™ is designed to reduce frustration associated with teaching a child who is running away from learning due to difficulties in comprehension. Transparency™ provides an open door to a child struggling with whatever subject - math, science or any subject. Transparency™ is a free new ally designed to reduce whatever stigma associated with learning difficulties. Teachers from any school enrolled in the Transparency™ program would be able to post homework along with any specific instructions. Students would immediately have access to the homework posted by their teachers. Parents of students in the enrolled school would receive notifications and access to the same homework their children have access to. Any child who is in need of help should be able to find mentors. Those who would like to step forward and help as mentors are encouraged to register to assist.
