Farms, ranches and other businesses that raise or house livestock may lose money if the animals are injured or die due to accidents or disease. They can protect themselves against the loss of valuable animals by purchasing livestock insurance. This insurance is typically used to cover domesticated animals such as cattle, sheep, pigs, and horses. However, it may also be used to insure more exotic creatures like bison, llamas, and alpacas.

There are several types of livestock insurance. The kind of coverage a business needs depends on the varieties of animals it owns and the purpose they serve. A large feedlot needs different coverages than a farm that owns a few cows.
