About Troilus Gold Corp.

Troilus is a Toronto-based, Quebec focused, advanced stage exploration and early-development company focused on the mineral expansion and potential mine re-start of the former gold and copper Troilus mine. The 84,600 ha Troilus property is located Northeast of the Val-d'Or district, within the Frotêt-Evans Greenstone Belt in Quebec, Canada. From 1996 to 2010, Inmet Mining Corporation operated the Troilus Project as an open-pit mine, producing more than 2,000,000 ounces of gold and nearly 70,000 tonnes of copper.

Justin Reid Chief Executive Officer of Troilus, Commented:

"Despite the Covid-19 shutdown earlier this year, Troilus has been able to continue to advance our development plans on all fronts and remain on track to deliver an updated mineral resource and Preliminary Economic Assessment targeted over the next couple months. In May, we began a phased re-opening at site. Activity has focused on infrastructure upgrades and our geological team has now been in the field for a month accessing the +68,000 ha we acquired and staked in April, in many cases exploration is happening there for the first time in 50 years. Last month, Troilus closed an upsized, oversubscribed, bought-deal financing for \$25 million, welcoming new investors to Troilus and substantially strengthening our balance sheet, providing the ability to execute on our development plans through 2021. The Troilus camp is gaining increasing investor focus and the Investors Coliseum is leading the charge providing real-time coverage and the first place to visit when researching potential investments.

About X-Terra Resources Inc.

X-Terra Resources is a Canadian exploration company focused on discovering new frontiers and advancing precious metals projects in the best mining jurisdictions in the world, Quebec and New Brunswick. X-Terra is actively exploring for new gold deposits in underexplored regions of Québec, specifically alongside one of North-America's largest undeveloped gold deposits (Troilus Gold Corp.) and New Brunswick, where the Grog property has delivered a brand new gold discovery for X-Terra.

Michael Ferreira Chief Executive Officer of X-Terra Commented:

"We are extremely happy with the progress and exploration activity that has been ramping up in the Troilus camp. The Frotet-Evans greenstone belt has gone underexplored for far too long and is finally undergoing systematic exploration by top tier teams. We just wrapped up our first ever -boots on the ground- program at Troilus East and are anxiously awaiting the first batch of results. We are also very delighted to be highlighted by The Investors Coliseum alongside a great

company like Troilus Gold.”
