

Energy from Waste 2020 To Discuss the Role of EfW in Reaching Net Zero

The 13th annual Energy from Waste conference will feature presentations which highlight how the industry is striving to achieve a low carbon emissions future.

LONDON, UNITED KINGDOM, July 21, 2020 /EINPresswire.com/ -- The Energy from Waste industry is striving to achieve targets set by the EU, with many countries aiming to be one of the world's first circle economies.

This December, the progress of residual waste will be discussed in depth at the [13th annual Energy from Waste conference](#), which will take place in London on 1st – 2nd December 2020 to explore how market leaders are paving the way for a low carbon emissions future.

SMi Presents the 13th Annual Conference...

ENERGY from WASTE 2020

Copthorne Tara Hotel,
London, UK

1st - 2nd
DEC
2020

Energy from Waste 2020

The poster features a night-time photograph of an industrial facility with a tall chimney and buildings, reflected in a body of water. The text is overlaid on the image in white and yellow. A logo for SMi is in the bottom right corner.

Interested parties should register for the conference by 30th September to save £300 off the conference price with the early bird discount: <http://www.efw-event.com/EINpr3>

Environmental Services Association, Westminster City Council, Fortum Oslo Varme and Eunomia are just a few of the organisations who will be speaking at the event to give presentations on the role of energy from waste in reaching net zero:

- "Resources and Waste Strategy and Net Zero as principal policy drivers for EfW" presented by Jacob Hayler, Executive Director, Environmental Services Association (ESA)
- "Westminster's low carbon transportation fuel generated from waste" presented by Jarno Stet, Waste and Recycling Manager, Westminster City Council

- "Opportunities for CO2 Capture in the Waste-to-Energy Sector Case study - Fortum Oslo Varme's waste-to-energy plant at Klemetsrud" presented by Jannicke Gerner Bjerås, Director of CO2 Capture and Storage, Fortum Oslo Varme
- "The role of RDF export and EfW in a low carbon economy" presented by Bethany Ledingham, Senior Consultant, Eunomia

The event brochure containing the full agenda and speaker line-up is available to download free from the conference website: <http://www.efw-event.com/EINpr3>
