

James Morgan Explains How Worcester Air Conditioning Works to Keep Staff Safe Throughout COVID-19 Pandemic

Worcester Air Conditioning has taken important steps to ensure the safety of staff members in the shop and on job sites during the pandemic, says James Morgan.

ASHLAND, MASSACHUSETTS, UNITED STATES, July 21, 2020 /EINPresswire.com/ -- James Morgan, president and CEO of Worcester Air Conditioning, explains how the company is working to keep its staff safe on job sites and in the warehouse during the COVID-19 crisis through various new safety measures.

For more than half a century, Worcester Air has been a leader in sheet metal solutions for commercial and industrial projects throughout eastern New England. The organization aims to deliver exceptional quality through knowledge, innovation, and the most efficient production facility in the Northeast.

James Morgan has led the company as president and CEO since 2008.

At the onset of the pandemic, says James Morgan, WAC worked to develop an action plan to ensure a safe working environment.

Worcester Air now conducts staff check-ins every day to ensure employees are healthy to work. The Company ensures proper social distancing when possible and mandatory mask usage when social distancing is not possible. The company reviews job site conditions at weekly huddles with supervisory staff, such as signage on job sites and in the warehouse that now need to be followed. Employees who are deemed to be at risk for exposure to the virus, testing is required. In addition to introducing these safety measures, Worcester Air Conditioning is working to ensure minimal disruptions to service, says James Morgan.
