

Proteus-Cyber launches same day implementation of data requests for CCPA, GDPR, LGPD and other regulations

London, UK – July, 2020 – Proteus-Cyber announces the same day implementation of their NextGen data subject access request (DSAR) module.

LONDON, UNITED KINGDOM, July 27, 2020 /EINPresswire.com/ -- The new generation of data privacy regulations, including GDPR, [CCPA](#) and LGPD, give consumers the right to see the data held on them, the right to correct it, the right to have it deleted and the right to transfer the data, each right being qualified by certain conditions. Substantial fines can be applied to organisations that do not comply. In the case of [CCPA enforcement](#) by the California Attorney General started on 1st July 2020, whilst fines under GDPR are already in force.

The screenshot shows a web interface titled "Subject/Consumer access request" with a "Login" link in the top right. Below the title is a light blue box containing three steps: "Step 1 - Fill in the form and press the 'Request verification code' button and you will receive a verification code in your email", "Step 2 - Enter the correct verification code and you will receive a password", and "Step 3 - To review your consumer request status and information, login with your email & password".

The form fields are organized as follows:

- Title:** A dropdown menu with "Please select..." as the current selection.
- * First name:** A text input field.
- * Last name:** A text input field.
- * Type of request:** A list of radio buttons including "Request for data", "Request for rectification", "Request for deletion", "Processing objection", "Data portability request", "No right to auto decision", "Register a complaint", "Request information about the data source", and "Freedom of information".
- Primary address:** A section with fields for "Street name", "City", "ZIP code", and "Country".
- Alternative address:** A section with fields for "Street name", "City", "ZIP code", and "Country".
- * Daytime Phone Number:** A text input field.
- * Alt. Daytime Phone Number:** A text input field.
- * Email Address:** A text input field.
- * Alt. Email Address:** A text input field.
- * Role:** A dropdown menu with "Please select" as the current selection.
- * Date of Birth:** A date input field in "dd/mm/yyyy" format.
- * Upload an identification document:** A "Choose Files" button with "No file chosen" below it.
- * Please describe your request:** A text area with "Dear Sir or Madam," as the starting text.
- * Date range from:** A date input field in "dd/mm/yyyy" format.
- * Date range to:** A date input field in "dd/mm/yyyy" format.
- Verification:** A checkbox for "I'm not a robot" next to a reCAPTCHA logo, and a prominent blue "Request verification code" button.

Consumer and DSAR interface

[Proteus®NextGen Data Privacy™](#) provides a single web interface for organisations to capture all of these requests, including those specific to a single regulation such as 'Do not sell my personal information' under CCPA. This interface looks like the client's website and feeds all requests into Proteus from where they are managed to completion. This process includes validation, triage, task management, alerting, data retrieval, review and response. Where multiple regulations apply these are catered for too, all within the one system.

Announced today is the ability to provide same day implementation for clients requiring this service urgently. John Clelland, CEO, says, "Although most clients will not need a same day service, it is good to know that we can provide it should the need arise within a particular organisation."

About Proteus-Cyber

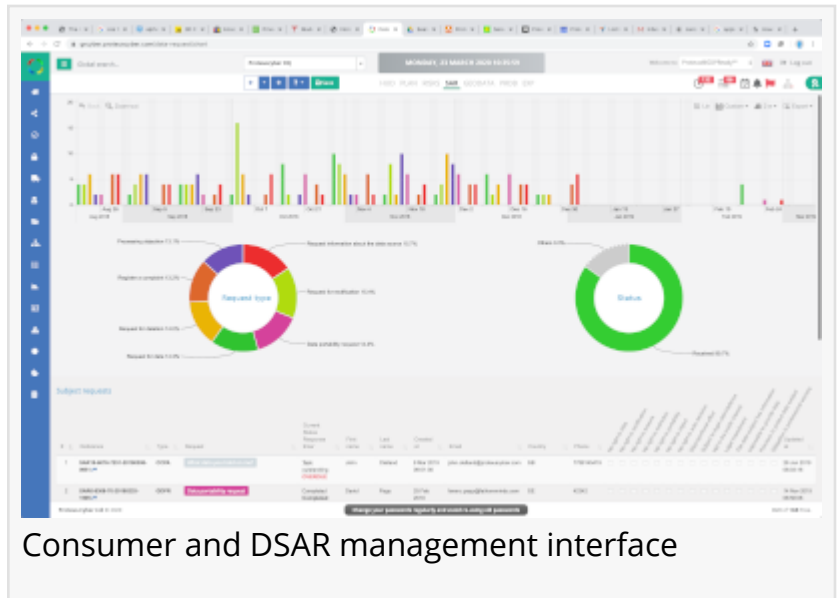

Proteus-Cyber Ltd, founded in 2013, is software house creating award winning solutions for data privacy and data security requirements, using the latest technologies in order to provide dynamic, flexible, attractive and comprehensive solutions designed specifically for complex enterprise organisations.

Although most clients will not need a same day service, it is good to know that we can provide it should the need arise within a particular organisation."
