

Are you wondering why cordyceps in Vietnam is so expensive?

HO CHI MINH, VIETNAM, July 26, 2020 /EINPresswire.com/ -- Currently, on the market there are many functional foods and valuable medicines, but none can match the cordyceps. Why Cordyceps has nutritional value as well as a high economic value so. Try it out!

Why do people say cordyceps is expensive?

Currently, many people ask the same question "why cordyceps is so expensive" it comes from many reasons as follows: origin, Cordyceps, and nutrient content contained in cordyceps.

According to the source:

Nature: Natural cordyceps are collected in mountainous areas, plateaus over 4000m to 5000m above sea level mainly found in some parts of Asia such as Tibet, Sichuan, Qinghai, Gansu, Yunnan. This cordyceps is very hard to find, so the price is high, worth up to 1-2 billion / 1kg dry.

Artificial: After researching, cordyceps are also cultured successfully in some countries such as Vietnam, USA, Korea ... because the nutrients and nutrients in cordyceps bring about health. artificial cordyceps are also quite expensive.

Cordyceps has been researched and cultured successfully in Vietnam

According to the cordyceps:

Currently in Vietnam as well as the world, there are many different types of cordyceps, very diverse and rich. Therefore, the price is also very different. In Vietnam, cordyceps is divided into

the following forms

- Fresh whole cordyceps: This type is parasitized on silkworm pupae
- Dried Cordyceps: This type is parasitized on silkworm pupae
- Cordyceps fruit: With this kind, it is grown on synthetic substrate
- Fresh jars of cordyceps: Still keeping the vials being cultivated
- Cordyceps cold - hot drying
- Biomass powder of Cordyceps

According to the medicinal properties of cordyceps bring health
