

Coursing through Epochs; John Carden Releases His New Novel

"John Carden, this year's most anticipated author, published 'Samson Blair the Time Marshall: An ICOPE Story'; showing the struggles of time traveling"

NEW YORK, NEW YORK, UNITED STATES, August 17, 2020 /EINPresswire.com/ -- Bewilderment, perplexity, and dubiety – the complex and precarious combination of emotions of the protagonist as he traveled through time set John Carden's Samson Blair the Time Marshall: An ICOPE Story different from the other novels. The unexpected journey through time creates multiple conflicts (intrapersonal, interpersonal, etc.) that transcend even what human consciousness can afford to comprehend.

John Carden's most imaginative book of all time sets is the story as an Old West United States Marshall suddenly transposed through time – Modern-day Los Angeles. As Human Nature dictates every one to survive, the main character must brave through challenges despite his confusion and unfamiliarities. Samson Blair the Time Marshall: An ICOPE Story shows the will of one person to strive for survivability while shredding shrouds of confusion each step along the way.

Battling through the confusion is, but only the first step in our hero's quest to find answers. Facing what appears to be creatures of a new kind for him, the hero gets to meet space aliens, shapeshifters, imperial seers, and Trecian Witches. With unrevealed intentions, the main character treads carefully. John Carden's Samson Blair the Time Marshall: An ICOPE Story unveils the intent of these characters if whether they will aid our hero in his quest to go back to his timeline.
