

# Luis Pappaterra P.E. Named Director of Engineering at Building Drops Inc.

*Expanding Our Service Offerings With Commercial Building Inspections*

MIAMI, FLORIDA, UNITED STATES, July 28, 2020 /EINPresswire.com/ -- [Building Drops Inc.](#) is proud to introduce Luis

Pappaterra P.E. as our Director of Engineering. In this role, Luis is

responsible for overseeing the Engineering Department, with a focus on design, construction, and inspection of low-rise and high-rise buildings in Miami-Dade County and beyond.

**BUILDING DROPS**  
A PERFECT SOLUTION IN EVERY DROP

Building Drops Inc.

Luis is a Structural Engineer with a multi-faceted understanding of our industry, with extensive

“

Luis allows us to increase our capability to serve our clients to an even higher standard. We know Luis has the technical expertise, but he also understands the human side of our business.”

*Hermes Norero, P.E.*

experience in both commercial building design and inspection. He earned his bachelor’s degree in Science in Civil Engineering from Florida International University and is currently in progress of earning his master's degree in Civil Engineering. He previously worked at CSW Structural Group, where he most recently served as the Structural/Threshold Inspector. Luis exhibited a high standard of work while supervising the execution and quality of building construction. His inspection experience is vast, displaying a strong understanding of structural steel, wood, masonry, reinforced concrete structures, railings, and glazing systems.

“I knew of Building Drops as experts for product approvals in the fenestration industry,” Mr. Pappaterra said, “I am excited to be working with the team to expand their design and structural engineering offerings and help the company grow.”

"First and foremost, Luis allows us to increase our capability to serve our clients to an even higher standard," says Hermes Norero, CEO & President of Building Drops. "We know Luis has the technical expertise, but he also understands the human side of our business, knowing how to manage large scale commercial projects and ensure safety consideration are the top priority."

Luis' experience will allow Building Drops Inc. to further expand our line of integrated services for design and construction of low-rise and high-rise buildings. Adding Field Inspection Services to our portfolio allows us to further aid our clients with permit documents, test reports, building code requirements, and inspection reports. We are excited about expanding our services and taking the next step in our evolution as a one-stop engineering and consulting service company.

#### About Building Drops

Building Drops Inc. is a unique structural engineering consulting company. We provide a full range of integrated services for the building and manufacturing industry, with a focus on the fenestration industry. Offering Documentation, Design, and Consulting Services to many companies throughout the US & beyond.

Hermes Norero, P.E.
