

The Avid Fish/Hunt Enthusiast Will Welcome This Addition

Shipping all over North and South America, this Canadian Company has solved the issues of loading and lifting boats, quads and other sport tools.

THUNDER BAY, ONTARIO, CANADA, July 28, 2020 /EINPresswire.com/ -- The [Overhauler](#) was invented because a guy had to wait for someone every time he wanted to go fishing.

Michael Rudnicki (807 767 0770) says he was just "fed up and frustrated" by his inability to just take off to the bush by himself whenever he wanted, always awaiting a friend, family member or buddy to accompany him and help lift the boat.

As a result, he create Overhauler - for quads / side by sides / trucks / short or long box. And now, in his 5th year selling the units, they have different [packages](#) available to cater to every need. They are sold also on Instagram

“

The Overhauler just does everything well, and - it gives you the freedom to go and do what you want - when you want to do it”

Inventor Michael Rudnicki

we're pretty fast at it as we've done so many assemblies - but if someone wants to have it shipped in pieces, we will certainly accommodate them".

Rudnicki, 50 something - has designed many different inventions including but not limited to: 45 gallon drum crushers, various tools to help people in and out of camp with their float plane and numerous other projects which are all designed based on a recognized need unfulfilled in the

LATEST INNOVATION **OVERHAULER**

The days of straining your back are over for contractors, outfitters and maintenance folks!

Contractors, outfitters and thousands of other people from all walks of life can now reduce repetitive strain & lower back problems using the new "Overhauler" lift system from **Rudnicki Industries**.

The **Overhauler Lift System** incorporates hydraulic and mechanical technologies into a neat, compressed and very functional solution to some typical age-old issues.

Owner Michael Rudnicki, inventor of the Overhauler Lift System, "I used to always have to wait for someone to give me a hand loading my boat, struggling it on and off the roof racks on my truck - I can't tell you how many times that I saved 'til for the problem - well, I did just that!"

"I got tired of waiting around for others all the time . . ."

"I created this Overhauler Lift System so that I could go into the bush, unload the boat myself and fish whenever I was convenient for me. It works great, is perfect for loading and unloading my 16' boat - and is big enough to load even a bigger boat - with the hydraulics doing all the heavy lifting."

The **Overhauler Lift System** now has two choices - the standard size for pickup trucks - and now, this newly created smaller version for ATVs / Quads / Side-by-Side vehicles.

?
Retail Price: \$6,200 Truck Model
Retail Price: \$999 Mini-Version
Lifts Pumps / generators / boats / motors
Takes NO SPACE in box of truck
One Person Operation
