Transformation Solutions,
Innova Solutions*

already turned the heads of many organizations in the healthcare industry. The two technology companies birthed the latest innovation of Virtual Care Technology with a dedicated focus on creating a quality experience for patients, while driving direct business value for Hospitals, Clinics, Medical Groups and Healthcare providers of all sizes and complexity.

This partnership brings a high-level of technology innovation and robust service offerings to the Healthcare Industry. The unique ideology of how the revolutionary platform works enables an innovative, best in class solution for Remote Patient Monitoring, Telemedicine and AI-Driven Care Coordination, with comprehensive healthcare data & analytics.

“Innova Solutions is extremely excited to participate in the transformation of the healthcare industry. We reviewed the Top 10 Telemedicine Platforms, and believe CareExpand is best suited to meet our customers’ needs. We are confident our partnership with CareExpand will provide a unique solution in the market to improve Healthcare Outcomes. Together, we are focused and well positioned to enhance Patient & Doctor and Doctor & Doctor communication, collaboration, and care, while reducing Healthcare costs and increasing provider profitability.” - John Guillebeaux, SVP Transformation Solutions, Innova Solutions.

Madhuri Kakarla, SVP, Strategic Initiatives and Healthcare practice at Innova added, “the partnership with CareExpand adds significant value to our healthcare solution offerings; we are excited to extend this offering to our clients as we strongly believe this solution provides the ability to our Provider Clients to deliver higher-quality care to more patients with a lower risk of

burnout at lower costs and higher efficiency”.

The CEO and Founder of CareExpand, Javier Vinals said, “The partnership between Innova and CareExpand creates a unique offering that brings clinicians the best Virtual Care Technology with all the guarantees of a safe integration, with dedicated support and the ability to scale.”

CareExpand connects seamlessly to any EHR/EMR/Practice Management patient record system which adds to the uniqueness of this solution. The integration of a patient record system to this elite platform provides an elevated value and immediate key benefits. This value then paired with Innova’s data, analytics, intelligent automation, and dedicated technology resources, creates a perfect compliment. While the marketplace is impressed by the fore-thought that has gone into this effort, they are also excited to find out the Innova CareExpand Solution pays for itself by helping its customers add value-based payments. Whether organizations have value-based contracts or just want to add virtual care services like remote patient monitoring and telemedicine, CareExpand is a revenue driver.

About CareExpand

CareExpand, located in Dallas, TX is a leader in empowering digital transformation of Hospitals, Medical Groups, Payors and Systems through its care coordination and virtual care platform. Delivering virtual care goes far beyond replacing office visits with video visits. They have a clear philosophy that patients should be able to see their doctor anytime, anywhere - because healthcare should be easy, clear and reasonable. With that, their goal has been to provide a platform that is fast, easy and intuitive, allowing practice/clinicians to be up and running with full EHR patient data, in minutes - not days, weeks or months.

About Innova Solutions

Innova Solutions, located in Santa Clara, CA is an American CyberSystems, Inc. (ACS Solutions) company, that provides a broad array of proven, tested, cost-effective, and enterprise-scale technologies and services that leverage the latest technology and delivery models to deliver high value in the cloud, in the data center, and across complex interconnected environments. Innova’s Healthcare Practice and Data, Analytics, Intelligent Automation, and leading Managed Services are a perfect complement to the CareExpand Virtual Care Platform.
