[ADDICTION CAMPUSES](#) ANNOUNCES NAME CHANGE TO VERTAVA HEALTH AS PART OF CONTINUED TRANSFORMATION

“

We are transforming our company to provide the right care, at the right time, in the right way, so that more people can live out their best future.”

Vertava Health CEO Matt Morgan

Addiction Campuses, a leading provider of substance use disorder (SUD) treatment and recovery services, is excited to announce today that the company will begin operating under the new name of Vertava Health. This change reflects both the continued transformation of the company into an evidence-based care provider for substance use and mental health services as well as its vision for the future, growing both in number of locations and breadth of services.

Vertava Health offers a full continuum of services that include detox, residential treatment, partial hospitalization, intensive outpatient therapy, outpatient therapy and virtual care (telehealth), serving those who struggle with substance use disorders and mental health conditions such as depression, stress, anxiety and post-traumatic stress disorder.

The name “Vertava” is a combination of two Latin-origin words: Vert (turn) and Ava (life), which we believe is a great representation of the treatment plans that our team of caring professionals use to equip our patients for long-term success.

“We are facing a great wave of challenging circumstances in our country and our vision for the

future of mental health is more important to realize now, than ever before,” said Vertava Health CEO & President Matt Morgan. “Creating access to affordable, evidence-based care through our growing in-network insurance relationships and the launch of our virtual care platform, we are positioned to offer high quality care to more patients across the country when and how they need it. We are transforming our company to provide the right care, at the right time, in the right way, so that more people can live out their best future.”
