Side Steps has received multiple five-star reviews:

"Side Steps: Terrorizing Sound Bites is a volume of collected poetry on a variety of personal and socio-cultural themes and was penned by author Amy Jean. The work explores the experience of women still living in a male-dominated society and falling victim to traditionalism and the

overlooking and automatic thoughts which keep us chained. The work includes rhythmic works of personal experience of the author as well as wider-reaching thematic works that protest against the system and encourage readers to open their eyes to true history beyond automatic thinking and censorship.

Author Amy Jean comes together with illustrator Eric Savage to create an artistic masterpiece that is both personal and progressive. The wordplay is spectacular and highly emotive, and the layout of the work itself makes for a visual and audible feast as the images perfectly match the poetic content. Accessible to all readers, the author reaches into the soul of her readership and speaks the truth." -K.C. Finn
