Annual MSP 501 Identifies Best-in-Class Global MSP Businesses & Leading Trends in Managed Services

WOLFGUARD™ IT
WOLFGUARD IT Ranked Among World's Most Elite 501 Managed Service Providers

JULY 28, 2020: WOLFGUARD IT has been named as one of the world's premier managed service providers on the prestigious 2020 annual Channel Futures MSP 501 rankings.

“

We are so honored to be recognized among many others in this industry. Our team has been dedicated to offering fully-managed IT services and offering 24/7 support and monitoring of IT infrastructure.”

Chris Kimbell

For the 13th year running, MSPs from around the globe completed an exhaustive survey and application this spring to self-report product offerings, annual total and recurring revenues, profits, revenue mix, growth opportunities and company and customer demographic information. Applicants are ranked on a unique methodology that weights revenue figures according to long-term health and viability; commitment to recurring revenue; and operational efficiency.

Channel Futures is pleased to name WOLFGUARD IT to the 2020 MSP 501.

“We are so honored to be recognized among many others in this industry.” said Chris Kimbell, CEO of WOLFGUARD IT. “Our team has been dedicated to offering fully-managed IT services and offering 24/7 support and monitoring of IT infrastructure. We are proud to be named one of the

MSP 501's of 2020."

In the 13 years since its inception, the MSP 501 has evolved from a competitive ranking list into a vibrant group of service providers, vendors, distributors, consultants and industry analysts working together to define the growing managed service opportunity.

2020 WINNER
MSP 501
Channel Futures.

"For the third year running, the applicant pool for the annual MSP 501 has grown year-over-year, making this year's list the most competitive in the survey's history," says Kris Blackmon, Senior Content Director at Channel

Partners and Channel Futures. "The MSP 501 leveraged judgement methodology brand-new in 2020 to drill down into not just what makes a big managed service provider, but what makes a great managed service provider. The 2020 winners are truly the best examples of innovation, business acumen and strategic savvy on the planet. We extend our heartfelt congratulations to the 2020 winners and gratitude to the thousands of MSPs that have contributed to the continuing growth and success of both the 501 and the thriving managed services sector."

Ten MSP 501 special award winners will be recognized at the MSP 501 Awards Gala at [Channel Partners Virtual: Digital Events for the Modern Channel](#) on September 8 – 10. Nominations for these special awards, including Digital Innovator of the Year, Executive of the Year and the Newcomer Award, were included in the MSP 501 application, and all candidates were encouraged to submit for them.

The data collected by the annual MSP 501 program drives Channel Partners's and Channel Futures's market intelligence insights, creating robust data sets and data-based trend reports that support our editorial coverage, event programming, community and networking strategies and educational offerings. It serves as a lynchpin to dozens of programs and initiatives.

The complete [2020 MSP 501 list](#) is available at Channel Futures.

Background

The 2020 MSP 501 list is based on data collected by Channel Futures and its sister site, Channel Partners. Data was collected online from Mar. 1 through June 30, 2018. The MSP 501 list recognizes top managed service providers based on metrics including recurring revenue, profit margin and other factors.
