The Process

[Remote Online Notary \(RON\)](#) allows notaries to notarize documents online from a different location than their customers, providing a solution to customers who are

unable to attend the closing in person, or who want to reduce their travel time and expenses. Two-way audio-video technology is used to perform and document RON notarizations. The

identity of all signors is verified through authentication technology, which securely captures and validates a government-issued photo ID. The signor must also correctly answer knowledge-based identification questions specific to their personal history.
