

More than 10 million Dony Mask antibacterial masks are exported to the world

Dony Mask is a High-quality 3-ply antibacterial cloth mask with 100% water resistance: Reusable 60 times, comfortable, breathable, fashionable & skin-friendly.

VIETNAM, August 2, 2020

/EINPresswire.com/ -- From the beginning of 2020 until now, European and American countries have quickly learned and imported more than 10 million [Dony Mask antibacterial masks](#), a reputable mask brand of Vietnam to prevent the COVID-19 epidemic.

As soon as the epidemic broke out in the world, two pharmaceutical companies in Vietnam signed a contract to buy 70,000 Dony antibacterial masks to support the doctors in big hospitals for anti-epidemic work. The export of cloth masks has helped Dony Garment Co., Ltd. achieve high sales during the COVID season. Dony Mask masks, resistant to

“

We do not compromise on our product's quality. There was one buyer who requested us to remove the aseptic packaging to reduce the price, but we insisted on quality and so we turned away the client.”

Dony Garment Company along with other Vietnamese enterprises donated medical supplies to the US

drops of saliva, have contributed significantly to help Vietnam successfully control the first Covid-19 pandemic, especially so far there have been no deaths. This result is a bright spot and is recognized worldwide.

From there, showing the ability and capacity of manufacturers in Vietnam in the field of apparel. Countries in the US and Europe have quickly learned, accessed the mask market in Vietnam, and imported more than 10 million Dony antibacterial masks to prevent epidemics in their countries.

Dony Mask products are FDA-certified by the US Food and Drug Administration and meet CE standards - standards

that can be circulated in the European market. In addition, Dony Mask antibacterial masks also meet the requirements of importing markets in Japan, Singapore, and many other countries such as the Middle East, Saudi Arabia, Nigeria ...

Masks are meticulously produced, up to the luxury from the packaging of the product. The outer layer is used from Poly woven fabric combined with antibacterial Cotton and water-resistant, minimize the droplets from surrounding, the middle layer is integrated with an antibacterial membrane, the inner layer is made from antibacterial technology of Germany. The company invests in E.O (Ethylene Oxide) packaging and sterilizing packaging machines with optimal antibacterial, anti-virus, and widely used in medical fields.

Unlike disposable medical masks, [Dony Mask cloth masks](#) can be used after more than 60 times washing with regular soap. In the test of INTERTEK (Global Organization for Testing and Quality Accreditation) with 60 washes, Dony's respirator still ensures anti-droplets and UV-resistance, especially for the antibacterial rate of 99.9%, the number is equivalent to a whole new palate. This is considered the outstanding advantage of the Dony Mask mask, which ensures both epidemic prevention and convenience, savings, and safety for consumers, and is very environmentally friendly.

Dony Mask cloth masks are handmade, after packaging and sealing with superheating, Dony will carry out a sterilization process. In addition, the protective mask layer is made of virgin plastic, which ensures high sterility and meets the standards of the Ministry of Health, ensuring 100% of

The Dony Company is the best antibacterial face mask supplier (washable, reusable) for Covid from Vietnam

The Dony Company is the best antibacterial face mask supplier (washable, reusable) for COVID from Vietnam. We are a wholesale face masks exporter from Vietnam and serve clients all over the world.

masks are clean, absolute health protection for users.

Entrepreneur [Pham Quang Anh, the founder of Dony Garment](#), said that in order to timely deliver products to customers, the company sometimes has to recruit 3,000 workers to sew cloth masks from the beginning of March.

Currently, with a large factory and a large workforce, Dony Garment Co., Ltd. is able to produce and supply nearly 300,000 masks in a day and can meet consumer demand. domestic and export to all countries with the Covid-19 epidemic.

On the evening of 5th June 2020, Dony Garment Company and other Vietnamese enterprises have donated medical supplies to the US's people.

At the ceremony, Mr. Daniel Kritenbrink, U.S. Ambassador in Vietnam has extended his heartfelt gratitude and confirmed that Operation USA Organization which based in Los Angeles, USA will distribute these medical supplies to needed places such as California, New York,.

Dony Masks meet the most stringent standards exported worldwide:
