Ophthalmic Drugs Conference

Those who register by the 30th September will save £100 with the early bird discount: <http://www.ophthalmicdrugs.com/einpr3>

Workshop will be on 'Ophthalmic Drug Delivery Development - Trials and Tribulations'. Hosted by Brian Levy, CEO, [Ocunexus Therapeutics](#).

Ophthalmic Drug Delivery is compelling for many reasons, including the major issue of patient compliance and tolerability of therapies.

The complexity of the diseases affecting the eye which encompasses both the anterior segment and posterior segment generally requiring unique technologies with respect to effective drug delivery.

When approaching the potential for drug delivery to the eye many issues come into play including the disease process, the therapeutics and regimen required, the pharmacology and pharmacokinetics, the administration of the drug to be delivered, the formulation and manufacturing issues for delivery systems, cost of goods, regulatory landscape globally and

clinical trial strategies, safety concerns, availability of adequate preclinical models and reimbursement environment globally.

Benefits of attending:

- Identifying unmet clinical needs favouring DD technology
- Understanding the pharmacological challenges for DD and development pathway including cost and timelines
- Appreciating the science and art of formulating DD products
- Regulatory landscape for product approval

About the workshop leader

Brian Levy is the CEO of Ocunexus Therapeutics a clinical stage company developing products targeting the innate NLRP3 inflammasome in pathological autoinflammation.
