

# Arkansas Mesothelioma Victims Center Offers a Navy Veteran with Mesothelioma in Arkansas Direct Access to Attorney Erik Karst of Karst von Oiste-Hire Better Lawyers-Get the Best Compensation-It Might Exceed \$1,000,000

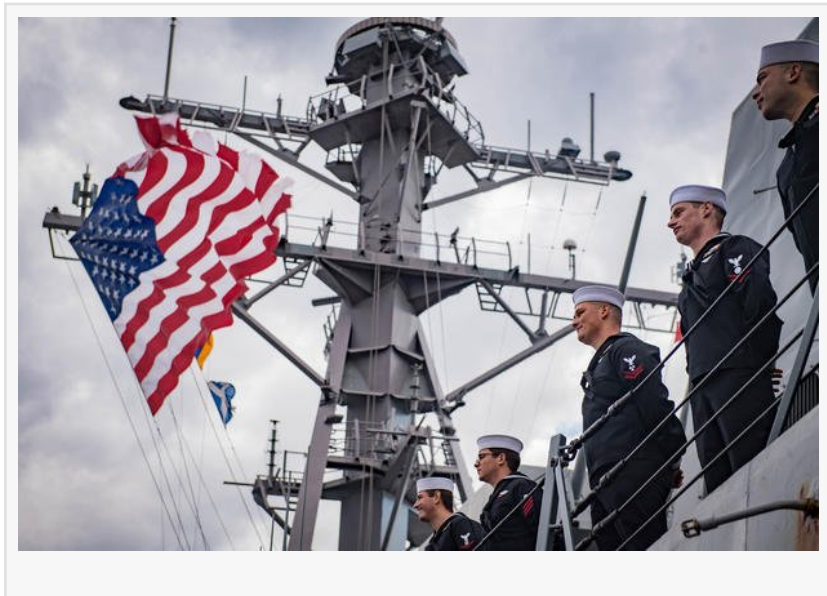

LITTLE ROCK, ARKANSAS, USA,  
September 21, 2020 /

[EINPresswire.com/](http://EINPresswire.com/) -- The Arkansas Mesothelioma Victims Center says, "We are urging a Navy Veteran with recently diagnosed mesothelioma in Arkansas or their wife, or adult son-daughter to please call attorney Erik Karst of the law firm of Karst von Oiste at 800-714-0303 to discuss compensation and what might be involved. Frequently mesothelioma compensation for a Navy Veteran might exceed a million dollars. The average age for a person with mesothelioma in the US is 72 years old and typically their asbestos exposure in the navy occurred in the 1960s or 1970s. Erik Karst is one of the nation's leading mesothelioma attorneys and he will know how to help you.

"We do not want a Navy Veteran with mesothelioma in Arkansas or their family playing lawyer roulette by calling about 'free' mesothelioma booklets and or too good to be true 'claims' centers. The VA does not sponsor 'claims' centers-these are more often than not-marketing

gimmicks sponsored by law firms. A person with mesothelioma or their family does not have time for gimmicks. If a Navy Veteran with mesothelioma or their family would call attorney Erik Karst of Karst von Oiste at 800-714-0303-he will be able to help." For the best possible mesothelioma treatment options in Arkansas the Arkansas Mesothelioma Victims Center strongly recommends the following three health care facilities with the offer to help a diagnosed victim, or their family get to the right physicians at each hospital. Winthrop P. Rockefeller Cancer Institute Little Rock, Arkansas: <https://cancer.uams.edu>

Individuals with mesothelioma in the state of Arkansas could have been exposed to asbestos while serving in the US Navy or working at a power plant, at an oil or gas facility, as a plumber, a boiler technician, as an auto repairman, as an electrician, insulator, at a pulp and paper

mill or at a construction job site. In most cases, the exposure to asbestos caused mesothelioma at one of these types of workplaces in the 1950's, 1960's, 1970's, or 1980's. Mesothelioma typically takes three to five decades to develop. [www.karstvonoiste.com/](http://www.karstvonoiste.com/)

The states with the highest incidence of mesothelioma include Pennsylvania, Massachusetts, Maine, New Jersey, West Virginia, Florida, Wyoming, Oregon and Washington. However, mesothelioma does happen in Arkansas as the Arkansas Mesothelioma Victims Center would like to explain anytime at 800-714-0303. <https://Arkansas.MesotheliomaVictimsCenter.Com>

For more information about mesothelioma please refer to the National Institutes of Health's web site related to this rare form of cancer: <https://www.cancer.gov/types/mesothelioma>
