This report provides in depth study of ["Crane and Hoist Market"](#) using SWOT analysis i.e. Strength, Weakness, Opportunities and Threat to the organization. The Crane and Hoist Market report also provides an in-depth survey of key players in the market which is based on the various objectives of an organization such as profiling, the product outline, the quantity of production, required raw material, and the financial health of the organization.

A hoist is a mechanical device for lifting material, typically consisting of a rope or chain around a drum or wheel lift, and a hook for attaching payload.

The cranes market for hydraulic cranes by operations held the largest market share in 2017. Hydraulic cranes are widely used for hoisting and moving heavy materials in shipyards, warehouses, and industrial workshops. Moreover, hydraulic cranes are used in transport, manufacturing, and construction industries. The retraction length of hydraulic cylinders is 20-40% of the fully extended length.

The market for wire rope hoists held the largest market share in 2017. Wire rope medium changes according to the load capacity of the hoists, and these hoists are powered electrically or pneumatically, and are mounted overhead on the bridge beam with the help of a trolley. Wire ropes are widely used in the production environment because they offer fast lifting time. They are normally used to lift objects weighing below 10 tons.

The cranes market in Asia Pacific held the largest market share in 2017. Asia Pacific being the most rapidly growing market offers a huge opportunity for agricultural equipment manufacturers owing to the enormous development in the farm machinery segment. This is driven by the increased demand for the mechanization of farms to address the needs of the growing population. Several governments provide support to increase the productivity in the

agriculture sector through the automation of farming methods. India and China are the major markets for cranes in Asia Pacific. Moreover, the rapid development of industries such as construction, agriculture, infrastructure, and mining drives the market for cranes in India and Australia.
