

Out Now! Kate Klein's "Sad Boy" Is a Song That Tackles the Subject of Toxic Relationships and Female Empowerment

Pop artist, Kate Klein, tells her stories and tackles age-old subjects in a way the next generations can relate to.

LONDON, ENGLAND, August 17, 2020 /EINPresswire.com/ -- Pop artist, [Kate Klein](#), announces the release of her newest single, "Sad Boy". The new track is now available on all major streaming platforms including [Spotify](#), Apple Music, and Amazon.

"Sad Boy" was written and performed by Kate Klein and produced by Universal's Teddy Marquee. "Sad Boy is the anthem for anyone who is in a toxic relationship and can't get out," says Kate. "It is about the emotional guy with feelings who hides a dark side. They buy your trust with fake

words and emotional sunsets and then disappears into the night. I've always had a thing for sad boys. I don't know why but I like tormented souls.. I'm tormented too in some ways. But I guess that's the price you have to pay when you're an artist..." "Sad Boy" is the second track on her

upcoming debut album MOTEL BROKEN HEART, which was written in her bedroom and produced in Los Angeles. Motel Broken Heart chronicles Kate's personal experiences in disappointment and heartbreak but she managed to create songs that are enticingly catchy "give-no-f*cks pop music" that young listeners find themselves singing along to. "I think people have that idea of me like I'm the girl always smiling, happy and worried about nothing. In

reality, I'm quite deep and tormented. I'm happy and sad at the same time...happy melancholic.

“

Sad Boy is the anthem for anyone who is in a toxic relationship and can't get out.”

I'm happy in my own world..." The new album is set to be released later this year.
