

Self-Service Kiosk Business Report by Kiosk Association

Kiosk business report covering RFPs and News including digital signage, temperature kiosks and more.

WESTMINSTER, COLORADO, UNITED STATES, August 10, 2020 /EINPresswire.com/ -- WESTMINSTER, Colo. -- The Kiosk Manufacturer Association recently participated in a temperature kiosk market report conducted by IPVM, one of the premier sources for video surveillance. Video surveillance is not the only market that has pivoted to medical device sales (admitted or not). Kiosk suppliers, hard hit by COVID-19, have also joined this emerging segment.

Inside this report, is an interview with Craig Keefner, manager of Kiosk Manufacturer Association (KMA) and editor of Kiosk Industry (KI), IPVM examines where the kiosk market was before COVID-19 and how kiosk suppliers have rapidly ramped up temperature screening offerings. As a public service, it should be noted that some of the investigative research that IPVM conducted identified one of the main Chinese producers of temperature kiosks, and many of the American companies relabelling those products (25 at last count), with widely varying profit margins (100% to 600%). Retailers and buyers can request a list of those products from the KMA.

[Recommended documented models](#) and manufacturers by the KMA include:

KIOSK Information Systems' Temperature Screening Kiosk
OLEA Kiosks' Temperature Screening Kiosk
Frank Mayer and Associates' Remote Temperature Screening Kiosk
Nanonation Temperature Screening Kiosk
Pyramid Computer Janus Temperature Screening Kiosk
22Miles "TempDefend" Temperature Screening Kiosk
Evoke Creative Temperature Check Station
Committees and Working Groups

To participate in the ADA Accessibility working group or the PCI EMV user group contact craig@kma.global. Issues such as tactile interfaces and audio navigation of POS are some current issues we are exploring as relate to legal actions. Working members include the RNIB and the National Federation of the Blind. The KMA is a Participating Organization with the PCI Security Standards Council. The KMA manages these working groups and committees via Slack at the current time. If you have contribution to make, you are welcome to participate.

Kiosk Products

Temperature kiosks for screening and fever detection. Over 20 solutions to choose from ranging from less than a \$1000 to more than \$25K depending on regulatory FDA approval.
