# ProtectedIT and CyberSaint Align to Provide Automated, Intelligent Cybersecurity Risk Management

*Managed Security Services Provider & award-winning Integrated Risk Management platform company strategically partner to offer cyber compliance & risk solutions*

CHICAGO, IL, UNITED STATES, August 12, 2020 /EINPresswire.com/ -- ProtectedIT, global managed security services provider and CyberSaint, the developer of the leading platform for automated, intelligent cybersecurity program management have announced today a strategic partnership for the deployment of cybersecurity and IT risk management, audit, compliance and governance use cases across all sectors. The significance of this new relationship is that ProtectedIT is the MSSP selected by RSA®, ThreatConnect, Virsec Systems and Tenable combined with the CyberSaint platform are a powerful complement thereby creating one point of access to the strongest cyber risk, detection, prevention and reporting program.

> ProtectedIT has a proven model for deploying Certified Managed Security Services around the world & across all sectors with award-winning product companies. We welcome this opportunity to align.”
>
> *Jerry Layden, Chief Revenue Officer at CyberSaint*

“We are pleased to welcome CyberSaint to our growing family of Product Partners as not only are they the winner of 5 Gold Cybersecurity Excellence Awards for Best Integrated Risk Management and Compliance but also their 833% growth over the past year indicates a reimagined, automated approach to governance, risk and compliance is in high demand,” says Damian Ehrlicher, Chairman. “Our immediate strategy with CyberSaint is to educate and present to communities under regulatory constraint who are needing to respond and to be

monitoring their Cyber Risk posture such as Critical Infrastructure, Governments, Financial

Markets and Healthcare."

Gartner recently reported July 2020 "The integrated risk management landscape has been rapidly evolving. This has created greater urgency for technology and service providers to reevaluate how they are strategically positioned in the market and how to uniquely position themselves for the future... To understand and manage the full scope of risk, organizations require a comprehensive view across business units and risk and compliance functions as well as key business partners, suppliers, and outsourced entities. As a result, new technology solutions are emerging to increase the collaborative nature of risk management, inside and outside an organization."

"ProtectedIT has a proven model for deploying and maintaining Certified Managed Security Services around the world and across all sectors with other award-winning product companies," says Jerry Layden, Chief Revenue Officer at CyberSaint. "We welcome this opportunity to align and look forward to joining a robust eco-system where an Integrated Risk Management approach to cybersecurity risk and compliance is clearly positioned."

About CyberSaint
CyberSaint Security is a leading cybersecurity software firm that empowers today's organizations to build a cybersecurity program that is as clear, actionable, and measurable as any other business function. CyberSaint's CyberStrong platform empowers teams, CISOs, and Boards to measure, mitigate, and communicate risk with agility and alignment. The Company was named the best Integrated Risk Management solution of 2020 by the Cybersecurity Excellence Awards, a 2019 Info Security Product Guide's Security Startup of the Year, and Built in Boston's "50 Startups to Watch" and a finalist for "Boston's Coolest Companies".
