

# MONETRAN TO EXHIBIT AT WASHINGTON ELITE BLOCKCHAIN SUMMIT

*Company to demonstrate app to prospective investors*

WILMINGTON, DELAWARE, USA, August 11, 2020 /EINPresswire.com/ -- The management of [Monetran](#), LLC has announced that the company will sponsor an information booth from which it will offer information to prospective investors at the prestigious Washington Elite Blockchain Summit on October 23, 2020. The summit, which is an annual event held in the nation's capital, attracts some of the highest net worth investors from all parts of the world.

Monetran will make transfers of money in seconds on a global scale

At the summit, Monetran expects to present its proprietary app which will enable the company to make international payments and remittances in a matter of seconds at a cost that is up to 70% less than most of their competitors. The app is currently in beta testing and the company expects it to be fully functional in the fourth quarter of 2020.

“

We've come a long way and I'm sure investors will be impressed”

*Don Bielak - Monetran CEO*

Among Monetran’s developments is Moneda, an asset-backed stable token developed for use on the Stellar network. Moneda has been designed to gradually appreciate in value and, according to the company, it has

been created with the purpose of making it a universally accepted medium of exchange for purchases and payments on the internet.

Monetran expects to earn fees from transactions made through the company app. One model demonstrates that Monetran could earn \$10 million per annum with a 3% market share of the U.S. / Mexico remittance market. The company says that several other markets exist in which Monetran could earn millions of dollars each.

“We are quite pleased and excited to be accepted as exhibitors at the Washington Elite Summit,” Monetran’s CEO, Don Bielak, said. “Hopefully everyone will stop by our booth to ask questions and to receive information on the project and the opportunity it presents. We've come a long way and I'm sure investors will be impressed.”

Bielak is tentatively scheduled to serve as a panelist on one of the discussions on fintech / cryptocurrency.

Monetran is currently engaged in an SEC Regulation Crowdfunding through the intermediary, [NetCapital](#). Investors can obtain equity in the company by purchasing units which consist of both a share of stock and a Moneda token. The offering is available to both foreign and U.S. investors and will only continue until September 4, 2020.

Further information on the company can be found at the Monetran website at [www.monetran.com](http://www.monetran.com).
