

Social and Environmental Financial Advisory Firm, Greenvest, becomes a Certified B Corporation

MONTPELIER, VT, UNITED STATES,
August 12, 2020 /EINPresswire.com/ --

Greenvest, a socially and environmentally responsible financial advisory firm, is proud to announce they have officially become a Certified B Corporation®. Greenvest joins the rapidly growing movement of more than 3,400 Certified B Corporations from 150 industries, across 71

countries, including companies like Seventh Generation, King Arthur Baking Company, Patagonia, and Ben & Jerry's.

"We are honored that our concerted efforts at Greenvest to drive positive change throughout the world both as a company and through our clients' investments have been formally recognized. B Corp certification is about as rigorous as it gets. Even as a very committed company, we still had to do a very significant amount of work and documentation, which has only further increased our respect and admiration for any business that earns B Corp status. The B Corp community is fantastic, and we encourage any like-minded business to start the application if they have the bandwidth," said Craig Walker, Financial Advisor with Greenvest.

Greenvest provides personal consulting on socially responsible investing and creates custom investment portfolios that align with each client's individual social values and financial goals. They offer among the largest arrays of socially responsible investing services and product choices available, ranging from exclusionary (fossil-free portfolios) to positive and inclusionary (gender-lens investing). They also provide green company retirement plans. Greenvest's main offices are located in Vermont – Wells and Montpelier – with additional offices in the Boston and San Francisco Bay areas.

Certified B Corporations (B Corps) are for-profit companies that use the power of business to build a more inclusive and sustainable economy. To become a B Corp, companies such as Greenvest must apply through a rigorous certification process using credible, comprehensive, transparent, and independent standards of economic, social, and environmental performance. B

Corp Certification is a highly selective status for purposeful businesses changing the world. To maintain their B Corp status, Greenvest must document their positive impact and undergo verification every three years.
