

Anmol is now one of the top 8 entrepreneurs to look out for in 2020

The successful millionaire is now one of the top 8 entrepreneurs to look out for in 2020

USA, August 14, 2020 /EINPresswire.com/ -- [Anmol Singh](#) has recently been listed as one of the top 8 entrepreneurs to look out for this year. The announcement was made by Yahoo Finance, with the young CEO being listed first. The other entrepreneurs that were listed second and third place, were Keenan Williams and Herschel Dixon Jr.

Anmol's success has been recognised greatly, since he is a highly important individual in the trading and investing industry. He has recently published a book called 'Prepping for success', which is meant to include 10 important elements that will help investors and traders become successful in their careers.

He is one of the youngest millionaires in the trading and investing industry, as he hit his peak of success at just the age of 22. Anmol is now 28 years old and is still continuing his career gracefully.

Anmol has stated, "I am very proud of what I have achieved so far in my career and I am honoured to be recognised as one of the top 8 entrepreneurs to look out for. It goes to show that hard work pays off and you always have to graft to get what you want." Anmol is currently still in the Stock Market and Forex trader. He is also expanding his real estate portfolio with other entrepreneurial ventures and franchise stores. Anmol is still present at his education firm Live Traders, where he is working daily with his students and continues to financially back them.

Anmol is known in the industry for being a consultant that specialises in both psychological and behavioural elements towards trading and investing, as well as the skills needed to become successful. Anmol has previously announced that, "What our aim at Live Traders is to take both

Anmol Singh

new and veteran traders on a journey so that they have a basic understanding of how the stock market works, which can result into a full-fledged career if that's what their goal is. My passion is to see the process and results that both I and my students are looking for. So many students come through our program and consistently profit using the skills we've taught them, I'm more inspired than ever to keep growing."

Anmol launched Live Traders in 2015, which is now considered to be the #1 Trading Education Firm for 3 years in a row. He has trained and coached over 1000 traders and investors, with some even now running their own Hedge Funds. Anmol was crowned the title as the leading expert in the Trading Psychology sector, which he has also helped thousands of traders globally when dealing with both psychological and behavioural issues.

Anmol Singh- entrepreneur

He was initially inspired to set up Live Traders after being motivated to help people in this particular field. Anmol has stated, "After working for a prop firm and seeing countless traders attempt to make a career out of investing in the stock market but failing miserably, I knew I could help. Our primary goal with Live Traders is to educate. There are so many live trading rooms out there, too many in my opinion, that simply call out ticker symbols to trade without any training on the thought processes or strategies used to find those stocks in the first place."

Anmol graduated from Brunel University in London, with a BSc with Honours in Business & Management. The successful consultant knew from a young age that he wanted to combine his judgements in business with his financial knowledge. In 2010, Anmol began his journey in the financial industry and began trading. Even though he had an extensive background and education, he chose to use resources that would teach him about success. He worked hard before he was able to see the profit that he achieved through trading.

Anmol has a Live Traders Legacy Scholarship program to traders who may not have the financial means to purchase our high-ticklet training materials. He currently has students who are not financially able to pay for the lessons through the scholarship program, as well as students who are able to pay in the education firm. Anmol solely focuses on helping people with having financial freedom.
