PUNE, MAHARASTRA, INDIA, August 16, 2020 /EINPresswire.com/ -- TV Analytics Market:

Executive Summary

Global TV Analytics Market is valued approximately at USD 2.23 Billion in 2019 and is anticipated to grow with a growth rate of more than 17.40% over the forecast period 2020-2027. TV Analytics refers to analysis of the channels, networks, advertisements, campaigns and the customer pattern in order to enhance the Return on Investments by the companies and enhance customer base. TV analysis offers insights of customer behavior and reactive pattern along with the operational and network performance. Increase in digitization worldwide resulting higher investments in the digital advertisements in several industry verticals is the major factor driving the growth of the market. For Instance: As per Statista is April 2020, global online penetration rate is 59% of the world population motivating digital advertisements and enhancing the growth of the market. Surge in the need to find innovative solutions to get optimized results out of digital investments create opportunities for the market growth. Rise in the trend for digital original web series along with surge in the Subscription for Video on Demand are the factors which fuel the growth of the market. Rising demand for Over the Top platforms such as Hotstar, Zee5, Netflix and Amazon Prime contribute significantly for the development of the market. Moreover, advances offered by data analytics in data collection by technology has enabled the access of unlimited data. Including customer data, location detail, advertisement analysis and target demographics which boost the acceptance of TV analytics by the companies. However, lack in the digital infrastructure in the emerging economies is the major restraining factor which impedes the growth of Global TV Analysis Market over the forecast period of 2020-2027.
