The innovative BriskNPosh salon is now offering a brand-new service to residents of NYC and beyond. The SoHo location’s team is proud to announce that [brow lamination](#) appointments are now available.

This new service offering joins the salon’s already impressive list of options, including laser hair removal with the Alma Soprano Ice machine, full-body waxing, eyebrow threading, eyebrow and lash tinting, and microdermabrasion.

Brow lamination is a painless three-step process that leaves eyebrows looking fuller and glossier for about 90 days. BriskNPosh is excited to be ahead-of-the-curve in offering this must-try new beauty treatment to customers.

Owner and founder Natalia Romanenko, who has been featured as an expert in hair removal in GQ, The New York Post, and Allure, stated, “We are excited to offer brow lamination to all of our clients who are looking to enhance their appearance. This is a simple way to elevate your everyday style without even wearing make-up!”
