Mobile Deployable Communications 2021

As adversaries evolve, deployable communications need to develop stronger resilience in order to withstand the challenges associated with electronic warfare. Militaries must especially focus on the protection of communications in degraded environments as ever more complex electronic warfare technologies are deployed.

This annual military conference will bring together leading program managers, strategic decision-makers, industry experts and thought leaders from Europe and further afield to explore the latest developments in communications technology and the challenges associated with electronic warfare.

Mobile Deployable Communications 2021 will feature exclusive briefings from key regional partners and their international allies. Just some of the many presentations at the conference

include:

1) The Portuguese Approach to Mobile CIS

- Capability management per the 2014 PRT DoD capability planning directive
- C2S as an enabler: command post, mobile and low echelon use of Army C2
- Robust and resilient tactical DCIS – maintaining FMN compliance for deployable forces
- GRC-525 tactical communications radio – working with EID to deliver the SDR by 2023

Brigadier General Bento Soares, Director CIS, Portuguese Army

2) Supporting NATO Operations Through Deployed Communications

- An introduction to the work of NATO SHAPE and its role in supporting European forces
- Where CIS can support coalition operations and utilising ad hoc networks for rapid response
- How FMN is enabling interoperability and standardising CIS for partner nations
- Concluding comments and thoughts on future requirements

Brigadier General Pantelis Arapis, Assistant Chief of Staff ACOS J6 Cyberspace, NATO SHAPE

3) Tactical Edge Networking Towards Digital Integration (Interoperability 2.0)

- An update on the DEU/NLD TEN Program
- Towards product delivery and realizing benefits Spiral Zero (2023)
- Amplifying interoperability through FMN Tactical Edge Syndicate

Colonel Robert Miedema, Program Manager FOXTROT and NLD Program Lead TEN, Netherlands MoD
