

Kiosk Printer - BOCA's Lemur-Z Provides Easy Replacement for Zebra's KR403/203 Kiosk Printer

BOCA's Lemur-Z kiosk printer serves kiosk manufacturers and end-users as a seamless replacement for older printer models, like Zebra's KR403 and KR203.

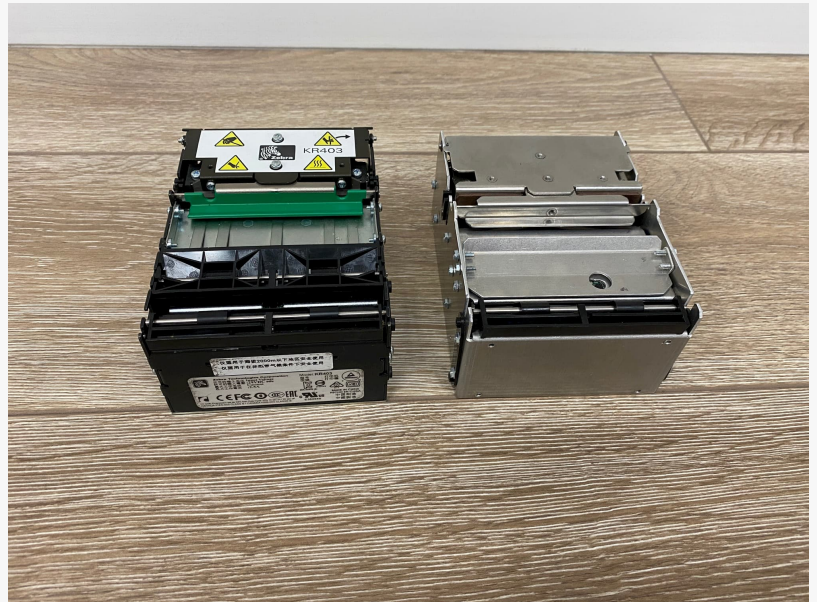

BOCA RATON, FL, UNITED STATES, August 24, 2020 /EINPresswire.com/ -- BOCA's Lemur-Z kiosk printer has attracted attention from kiosk manufacturers and end-users as a seamless replacement for older printer models, like Zebra's KR403 and KR203. The Lemur-Z makes a costly kiosk re-design unnecessary, as customers can easily swap-out their legacy printer for the BOCA replacement.

From the [Kiosk Association website](#), "It is worth noting that the End of Life notices for the Zebra printers are in full force. There are many other printers which replace the 203/403 but the closest we have seen is the BOCA printer (pictured to right of 403 in feature image)".

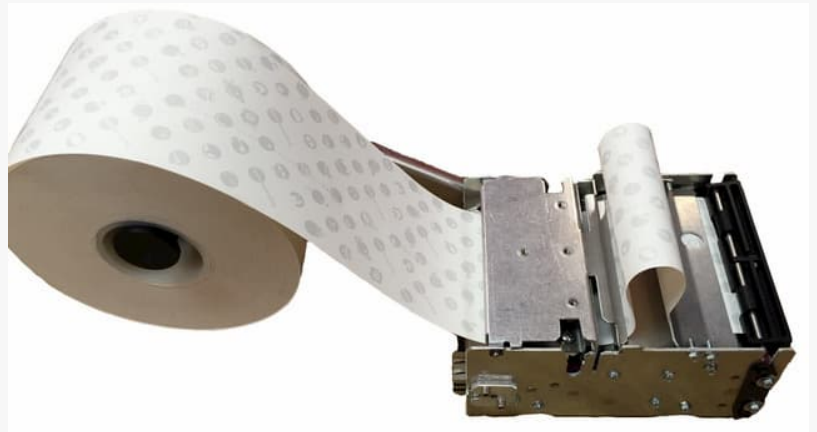

The Lemur-Z comes standard with a presenter and is available with a host of optional features, including roll holder, Ethernet, WiFi or Bluetooth interfaces, and low paper sensor. The Lemur-Z model, along with all other BOCA printers, are produced at the

ABOUT BOCA:

For forty years, BOCA has been a leading manufacturer of ticket, kiosk and receipt printers. BOCA's printers are installed worldwide and are known for their speed, reliability and durability. Although BOCA's wide range of products supports a variety of applications, BOCA's engineering team welcomes unusual projects where they can take advantage of their expertise in printing, barcode, and RFID technologies. Customers benefit from BOCA's unique position as a manufacturer of both printers and stock, including tickets, wristbands, and labels. BOCA produces over 1 billion tickets each year, and the company stands behind its product with their free print head replacement policy.
