

# Vendux is Now the Largest Community of Sales Leaders Available for Interim And Fractional Assignments

---

*Vendux reaches this milestone in the US after only twelve months and the community represents a wide variety of industries, products, and skills.*

KANSAS CITY, MO, UNITED STATES, August 24, 2020 /EINPresswire.com/ -- Launched only twelve months ago, [Vendux](#) has grown to become the largest community of sales leaders, available for interim and fractional assignments in the US.

The [executives](#) in the community represent a wide variety of industries, products, and skills. They average over 18 years of sales leadership experience, always augmented by other roles in sales, business development, and as an executive. Collectively they have worked in virtually every industry and successfully lead sales efforts around any type of product or service. Their leadership covered teams of two and teams of 800, in start-ups, SMEs, and multi-nationals.

Vendux uses a proprietary matching [algorithm](#) based on deep semantic search, context-weighted, and role-relevant data points, to facilitate the process of finding the perfect match. The diversity and depth of the community allow Vendux to match every client with a sales leader who has demonstrated success in an identical business scenario before.

"We are extremely proud of this milestone," shares Henning Schwinum, Co-Founder of Vendux. "This sizable community allows us to find the perfect match for any client, whatever the industry, geography, product, sales process, growth goals, language-skills, or team configuration calls for. And we will continue to grow and add further talent to the community."

About Vendux LLC:

Vendux fills the void when sales leadership is missing in an organization. Vendux is a matchmaker between available sales executives and organizations with a sales leadership gap. The partners who decided to start this business are former sales leaders who have been successful leadership practitioners. Vendux, based in Kansas City, MO, focuses on interim and fractional placement in commercial leadership roles throughout the United States.
