Registered Trademark

The CBD Nation® registered trademark (#5312245) allows the provision of on-line computer and searchable databases in the field of medical information, including medical testimony and preventative care information. The international classification encompasses medical services, veterinary services, hygiene and beauty (people/animals), agriculture, horticulture and forestry services.

Logo

Logos are the vanguard of any company. They are the image that people see in their mind's eye when the company name is broached and the image that triggers the memory of a company's name on sight.

Standing out in the ever-growing crowd of CBD companies is a challenge for any business trying to make inroads into the industry. A well-designed logo is one of the primary tools of a company to accomplish this task. The CBD Nation® logo was created by carefully considering its orientation, scalability, location, environment and medium to provide versatility and clear recognition.

About the Logo Designer

The logo was designed by an experienced mechanical designer who is well versed in multiple platform, 3D virtual solid modeling and technical trade graphics. He creates renderings and images for trade magazines and company literature. This designer also has over two decades of experience in component design for launch vehicles, satellites, space probes and military applications. Projects include the CSEM Mars Rover, NASA Parker Solar Probe, Space-X Dragon, Crew Dragon and Falcon 9.
