Summary:

Wiseguyreports.Com Adds "Pharmaceutical Plastic Packaging - Market Demand, Growth, Opportunities, Manufacturers and Analysis of Top Key Players to 2026" To Its Research Database.

Overview

The global pharmaceutical packaging market size is projected to be valued at USD 188.79 billion by 2026, exhibiting a CAGR of 8.5% over the forecast period according to this report. Growing pharmaceutical industry, most notably in the emerging countries, such as China, India, and Brazil is anticipated to drive the growth.

Factors, such as drug discovery, and rising demand for Over-the-Counter (OTC) medicine are expected to drive the demand for pharmaceutical packaging. Rapid rise in population, improving healthcare infrastructure and increasing access of medicines to a large number of people, especially in the developing countries are other factors expected to positively impact the demand. Moreover, increasing aging population coupled with rising prevalence of chronic diseases is expected to fuel the market growth in near future.

Furthermore, increasing demand for patient-oriented medicines including biologics is further anticipated to augment the demand for advanced pharmaceutical packaging products in the coming years. Biologic drugs are derived from microorganisms, animal, human or plant cells and generally tend to be heat sensitive thereby requiring specialized packaging. This, is anticipated to further propel the growth of the market.
