

New Website Launch From RyanTech

RyanTech, a leading Microsoft Gold Partner is proud to announce the launch of its newly redesigned website.

HIGLEY, ARIZONA, USA, August 26, 2020 /EINPresswire.com/ -- RyanTech, a leading [Microsoft](#) Gold Partner focused on delivering technology solutions based in the Cloud, is proud to announce the launch of its newly redesigned website at <https://www.wespeakcloud.com>. The new site features state of the art architecture with a cutting edge development language. This site increases customer security when accessing accounts. It also helps businesses of all types identify how they can save money and increase efficiency by moving their business to the Cloud.

"I am excited about the release of our new site and appreciative of the hard work from our team on getting it developed and launched in 4 weeks. I feel it showcases our software development abilities for clients needing custom development, but it also delivers on our promise of making our clients' businesses easier to operate."

Ryan McMillen, Director of Business Development

"With Covid19 forcing many teams to work remotely, many companies recognize the need to increase their Cloud presence. As a company that made a proactive decision to work remotely and manage our entire business in the cloud years ago, we are in a unique position to help clients navigate the important technical infrastructure needed to manage remote teams. Our previous website didn't truly reflect all the areas in which we help. We work primarily with companies in the Healthcare, Automotive, Finance, Small Business, and Nonprofit sectors."

RyanTech felt it was important for customers to know that there are solutions available to them: such as hardware management for remote workers, secure Cloud solutions, and our customer-
