and Play Montessori, a best-in-class preschool program in Fremont, [Danville](#), and Dublin, California, and online, is proud to announce a new post on the concept of kindergarten pods taught the Montessori way. "Pods" are when a small group of parents and their children get together to organize structured learning following best practices to mitigate the spread of

COVID-19. The company is announcing its own kindergarten pods strategy, now available for parents seeking online or [virtual kindergarten](#) as well as "blended" kindergarten options for parents in the East Bay.

“

Kindergarten pods are an exciting new concept in kindergarten education.”

Harpreet Grewal

"Kindergarten pods are an exciting new concept in kindergarten education," explained Harpreet Grewal,

director of Learn and Play Montessori. "We're using the pods concept as we break out children into stable, small groups and follow all protocols. We also offer online kindergarten options that are compatible with pods."

<https://www.learnandplaymontessori.com/online-learning/online-kindergarten/>. That page explains how the company is using Montessori methods to build out a best-in-class online kindergarten program. Indeed, parents can choose from face-to-face kindergarten in Fremont, Danville, and Dublin, California, online options for a virtual kindergarten experience (open to anyone in the United States), and blended options which combine online and face-to-face. The school even works with local school districts so that kids can combine public kindergarten in Fremont, Danville, and Dublin with the school's program. In this way, harried parents can offload

some of their teaching responsibilities onto the school and yet stay compliant with state and local preschool or kindergarten curricula. The goal is to give parents (and children) choices during these chaotic times, yet keep them learning.
