GoodFirms is a globally recognized and leading B2B research, ratings and reviews platform. It helps to build a bridge for the service seekers to make it effortless for them to get in touch with the best partners.

The analyst team of GoodFirms evaluates each agency through numerous research factors. It includes three main criteria that are Quality, Reliability, and Ability. Further, these components are subdivided into various measures to identify every firm's past and present portfolio, years of experience in their expertise area, online market penetration, and client reviews.

Thus, by focusing on the overall research methodology, each agency obtains a set of scores that are out of a total of 60. Hence, considering these points, all the best software, top development companies, and other organizations from various industries are listed in the catalog along with genuine ratings and reviews. Currently, GoodFirms have also published the list of [Best Property Management Software](#) that are known to provide optimal solutions to the builders.
