

Actigun, Percussion Therapy Massager, to Expand Globally after Success in US Market

Actigun is pleased to announce the global expansion of sales of its line of percussion massage therapy guns.

LOS ANGELES, CALIFORNIA, UNITED STATES, August 27, 2020

/EINPresswire.com/ -- [After an initial launch in the US market, Actigun exceeded expectations](#) by shipping thousands units nationwide in just a few months.

Actigun has secured further manufacturing commitments and has begun expanding its operations overseas. The company will begin with a marketing push in European, Chinese, and Southeast Asian markets.

Our newest massage gun model - Actigun Ace

"We have a real opportunity to become a global leader in percussion massage," said Caroline spokesperson for Actigun. "Our products are excellent. Our US customers have confirmed that. Our prices are also much lower than our competitors, which gives us an advantage internationally. A \$500 massage gun is simply not affordable in many global markets. You can get our flagship Actigun massage gun for just \$200, and it's just as good as the most expensive guns targeted to a luxury US market."

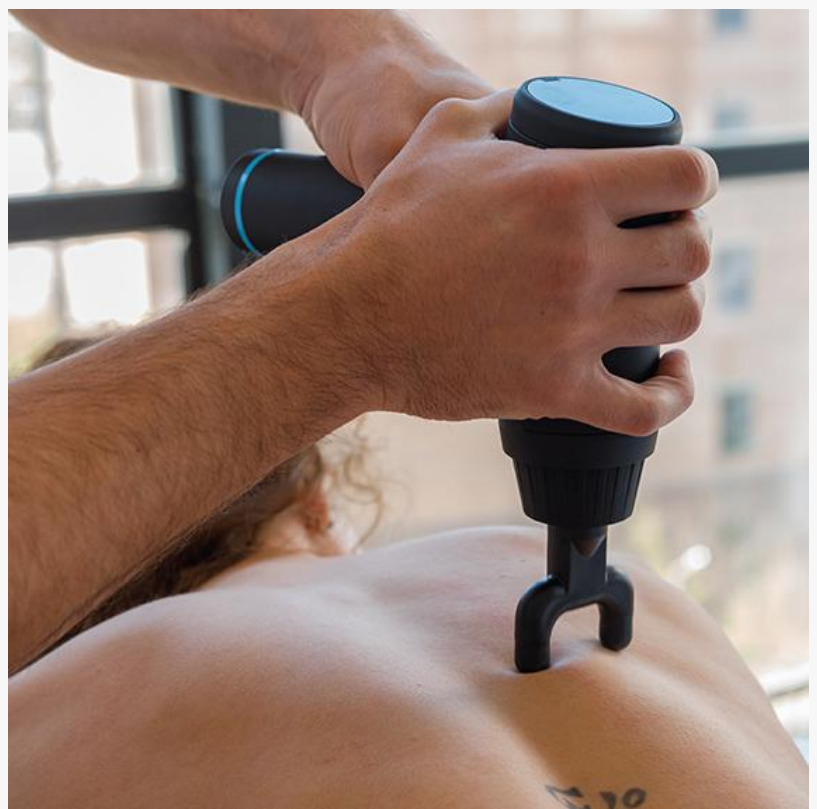

To commemorate the global launch, all Actigun percussive massage devices are now 50% off for a limited time. Actigun is shipping globally at www.actigun.com.

Actigun is a recent entrant into the portable percussion massager market. Its hand-held massage devices allow athletes, gym-goers, and anyone with stiff joints or muscles to enjoy a professional sports massage from anywhere.

Actigun's percussion massagers provide benefits beyond those of classic hand-held massage devices. Percussion therapy is a more intense, deep tissue massage that is used to break up scar tissue, speed muscle recovery, and enhance performance. Percussion massage also has benefits for non-athletes, as it has been shown to:

- Encourage blood circulation
- Relieve tension and cramps
- Work out muscle knots
- Reduce stress and fatigue
- Increase flexibility and range of motion

Actigun also appeals to those looking for a relaxing massage. It features 6 speed settings for customizable intensity. At the lowest speed setting, users can enjoy a relaxing deep tissue massage alone or with a partner.

The massage gun designed to give you the most professional massage and intimate care.

Each percussion massage gun by Actigun comes with multiple interchangeable massager heads. Each head is suited to a specific type of massage or part of the body.

“

A \$500 massage gun is not affordable in many global markets. You can get our flagship Actigun massage gun for just \$200, and it's just as good as the expensive guns targeted to a luxury US market.”

*Caroline, Actigun
spokesperson*

Actigun is highly portable and lightweight, outdoing many competitors in its ease of use. It was ergonomically designed for one-handed use, so the user can easily reach all parts of the body during solo massage sessions. It is weighted precisely to maximize wrist comfort and will not strain the forearm or wrist even at maximum power. Actigun's comfort and convenience are some of its most lauded features in customer reviews.

There are three percussion massage guns available in Actigun's line. All of them are currently shipping globally.

□ **Actigun:** The brand's flagship model, Actigun features 6 speeds and 4 massager heads. This standard gun is an affordable yet effective percussion massager.

□Actigun 2.0: This advanced model features a more powerful motor, 20 massage speeds, a touchscreen interface, and a carrying case.

□Actigun Ace: This premium massage gun is the most versatile model in Actigun's line. It features an industry-topping 30 massage speeds and 6 massager heads as well as a premium carrying case.

All of Actigun's percussive massage devices are on sale for 50% off for a limited time. [Visit www.actigun.com](http://www.actigun.com) to [learn more and place an order.](#)

Gain back control of your body with Actigun, the smartest and most affordable percussive massager.

[About Actigun](#)

Actigun is a leader in portable percussive massage therapy devices. Founded by engineers and former athletes, Actigun's goal was to introduce the general public to the benefits of percussive massage.

Until the launch of Actigun in the USA in 2019, percussive massage guns were only accessible to a luxury market, with many guns costing \$500-\$1000 or more.

Actigun has brought the benefits of relaxing deep tissue massage and performance-enhancing sports massage to a wider audience. Its proprietary technology has allowed the company to charge up to 80% less for the same percussive massage quality.

After the overwhelming success of its US launch, Actigun is now thrilled to expand sales around the globe.

Experience the future of percussive massage therapy and order your Actigun for 50% off at www.actigun.com today.
