

AC&NC and axle ai team up for affordable media-industry storage solutions

NAS and SAN configurations offer remote access, industry-leading price performance in two turnkey solutions aimed at video and broadcast teams

BOSTON, MA, USA, August 27, 2020 /EINPresswire.com/ -- Media software vendor [axle ai](#) is teaming up with [AC&NC](#), a leader in on-premise data storage, to offer two turnkey solutions aimed at the video and broadcast industry.

The two bundles, priced at \$17,995 and \$37,995, represent complete solutions including all the hardware required to store large amounts of media content, as well as the remote access and search software and server platform that makes accessing that storage hardware as easy as possible.

- JetStor® NAS-axle ai bundle, \$17,995, includes a JetStor XN8012R 2U NAS with 10 Gigabit connectivity and 140 terabytes of usable capacity, as well as a 5-user axle ai 2020 system on a 1U appliance with remote access, a suite of [Adobe](#) Creative Cloud panel integrations (Premiere Pro, AfterEffects, Photoshop, Illustrator, InDesign) and FCPX integration.
- JetStor SAN-axle ai bundle, \$37,995, includes a JetStor 824iXD 4U SAN dual controller unit with 340 terabytes of usable capacity, as well as a 5-user axle ai 2020 system on a 1U appliance with remote access, a suite of Adobe Creative Cloud panel integrations (Premiere Pro, AfterEffects, Photoshop, Illustrator, InDesign) and FCPX integration.

Both bundles include all the software and hardware connectivity to permit browser-based remote access, remote file upload and download, and a range of review and approval workflows

radically simple video search

JetStor®
Storage. Solutions. Support.

axle ai and AC&NC team up for integrated solutions for video postproduction teams

for in house and external participants.

Axle ai 2020 software features:

- integrated remote access tools including browser-based search, upload and download
- support for a wide range of Adobe Creative Cloud applications and workflows, including Premiere Pro, Photoshop, AfterEffects, Illustrator and InDesign
- integrated speech transcription for video and audio assets, and OCR for photo and document assets, massively improving searchability without labor-intensive tagging
- optional modules supporting native Avid and image sequence workflows, increasing axle ai's attractiveness in the high end of the post production market.

“Our flagship video search software, paired with remote access tools, have been helping teams maintain their workflows as more and more organizations make the move to remote

work during Covid-19. Our new Adobe panels take this one step farther, enabling video editors to efficiently and easily collaborate on media projects while working from home.” said axle ai CEO Sam Bogoch, “With axle ai, any web browser connects your entire media library to your Adobe product suite.”

“

Our bundled solutions offer full control and management over media stores ranging from small libraries to massive troves, all with unequalled simplicity - rapidly available via remote access.”
