

BlueStar Wins Remote Monitoring Work

*Teams with Upward Health on
Massachusetts Contract*

ROCKVILLE, MD, UNITED STATES,
August 27, 2020 /EINPresswire.com/ --
[BlueStar SeniorTech](#) has announced it
is teaming up with Upward Health to
provide Remote Patient Monitoring for
approximately 400 developmentally-
disabled adults under a contract with
the Massachusetts Department of
Health.

Upward Health is a risk-bearing multi-
specialty provider that partners with
health plans and other risk-bearing
entities to address the unique needs of the most high-risk, high-need users of the health care
system today. Using a unique, holistic, community-based approach to meeting a plan member's
needs, Upward Health facilitates and delivers care that improves outcomes and the quality of life
for every member they serve.

BlueStar provides remote patient monitoring (RPM) services to Upward and its patient
population, to include equipment, training, installation, software services, and ongoing
monitoring of the data. These services will include monitoring for COVID-19, as well as for
chronic conditions. BlueStar expects to implement the RPM solutions for this population in
Q4.

BlueStar CEO Robert Wray said, "We are delighted to team with a great group like Upward to
provide in-home care through remote patient monitoring, especially for such a deserving
population."

About BlueStar

Founded in 2013, BlueStar SeniorTech provides technology and services to help seniors stay
Safe, Healthy, and Connected in their homes as they age. It has 5000 customers across all 50
states. BlueStar also provides population health programs to help providers care for special
needs and high-risk populations, including remote patient monitoring, prescription adherence

programs, and COVID-19 monitoring and assessments. BlueStar is veteran-owned and operated, and certified by the Veterans Administration as a service-disabled-veteran-owned small business. It won the SBA Small Business of the Year Award (Maryland) in 2018.
