

New Mexico US Navy Veterans Lung Cancer Advocate Appeals to the Family of a Navy Veteran Who Has Lung Cancer and Who Had Asbestos Exposure to Call the Lawyers at KVO About Compensation-It Might Exceed \$100,000

SANTA FE, NEW MEXICO, USA, October 14, 2020 /EINPresswire.com/ -- The New Mexico US Navy Veterans Lung Cancer Advocate says, "We are appealing to a wife or adult son-daughter of a Navy Veteran with lung cancer anywhere in New Mexico to please call the lawyers at the law firm of Karst von Oiste-KVO at 800-714-0303 if the Veteran also had significant exposure to asbestos on a navy ship, submarine or at a navy shipyard. The financial compensation for a person like this might exceed \$100,000. If the Navy Veteran with lung cancer spent his career in the navy his compensation might be in the hundreds of thousands of dollars. The typical Navy Veteran with lung cancer we are trying to identify is over 60 years old and their asbestos exposure took place in the 1960s or 1970s.

"The lawyers at the law firm of Karst von Oiste-KVO have been assisting Navy Veterans with asbestos exposure lung cancer and mesothelioma for decades and they are responsible for over a billion dollars in compensation for people like this. Even if the Navy Veteran with lung cancer

smoked cigarettes-their compensation might exceed \$100,000 if they had heavy exposure to asbestos. For direct access to the lawyers of Karst von Oiste-KVO please call 800-714-0303. We think you will be glad you did." www.karstvonoiste.com/

The New Mexico US Navy Veterans Lung Cancer Advocate's free services are available to people with asbestos exposure lung cancer or mesothelioma in Albuquerque, Las Cruces, Rio Rancho, Enchanted Hills, Santa Fe, Roswell, Clovis or anywhere in New Mexico. <https://NewMexico.USNavyLungCancer.Com>

“

"The Navy Veteran with lung cancer we are trying to identify is over 60 years old and their asbestos exposure took place before 1982. Compensation for a person like this might exceed \$100,000."

New Mexico US Navy Veterans Lung Cancer Advocate

High-risk work groups for exposure to asbestos in New Mexico include US Navy Veterans, civilian workers at one of New Mexico's air force bases, workers at one of New Mexico's dozen plus power plants, oil refinery workers, civilian employees of the Defense Department, manufacturing, or industrial workers, public utility workers, plumbers, electricians, auto mechanics, machinists, miners, or construction workers. Typically, the exposure to asbestos occurred in the 1960's, 1970's, or 1980's. www.karstvonoiste.com/

The US Navy Veterans Lung Cancer Advocate says, "If your husband, dad, coworker or neighbor has just been

diagnosed with lung cancer and you know they had significant exposure to asbestos in the navy, at a shipyard or while working at a factory, at power plant, public utility, or as a plumber, electrician welder, mechanic or any kind of skilled trades group in any state please have them call us anytime at 800-714-0303. Most people like this never get compensated-even though the asbestos trust funds were set up for them too. We are trying to change this sad fact."

<https://USNavyLungCancer.Com>

According to the American Cancer Society for nonsmokers who have been exposed to asbestos in their workplace the risk of lung cancer is five times that of unexposed workers.

<https://www.cdc.gov/cancer/lung/statistics/index.htm>.

States with the highest incidence of lung cancer include Kentucky, West Virginia, Maine, Tennessee, Mississippi, Ohio, Indiana, Louisiana, Arkansas, Missouri, North Carolina, Rhode Island, Alabama, and Delaware.

However, asbestos exposure lung cancer can happen in any state including California, New York, Texas, Florida, Massachusetts, Connecticut, Pennsylvania, New Jersey, Illinois, Wisconsin, Minnesota, Nebraska, New Mexico, North Dakota, Wyoming, Utah, Montana, Idaho, Arizona, Washington, Oregon or Alaska.
