

# Tattoo Vanish Method's All-Natural Online Tattoo Removal Training Helping Experienced Tattoo Artists During the Pandemic

*One of the nation's leading tattoo removal companies is now offering online training for non-experienced tattoo artists.*

HIALEAH, FLORIDA, UNITED STATES, August 31, 2020 /EINPresswire.com/ -- Representatives with Miami-based [Tattoo Vanish Method, LLC](#) announced today that it has started offering online non-[laser tattoo removal](#) training to experienced tattoo artists, permanent makeup artists, and apprentice due to the COVID-19 pandemic.

"These are difficult times, and interested individuals are invited to join our online tattoo removal training," said Barbara Gonzalez, spokesperson for Tattoo Vanish Method LLC. "This training includes, Virtual Training, Certificate, Brochure Cards, Window Decal and Products."

Barbara stressed that becoming a tattoo removal technician is a great way to expand anyone's career or to start a new career path.

Today, there are more than 20,000 tattoo shops in the United States, and four out of 10 adults between the ages of 18 and 69 have at least one tattoo. That's 45 million Americans with tattoos. However, many people regret getting their tattoo.

According to a survey conducted by YouGov, almost a quarter of Americans who have tattoos regret at least one of them. This means that, while most people don't regret their tattoos, there are still plenty of people who do, and as more and more people get tattooed, there will be more and more people regretting them and looking to get them removed.

"Unfortunately, though, not all tattoo removal methods are made equal," Barbara said. "The fact of the matter is that, with many of them, you just won't get the results you want or expect. However, there's one tattoo removal method that rises above the rest — the Tattoo Vanish Method."

The Tattoo Vanish Method, according to Barbara, is a unique, all-natural method for removing

tattoos, and best of all, it gets the job done effectively and in fewer treatments than laser tattoo removal, and for a more affordable price.
