

A Helping Hand from PSK: Safe, Sanitary, Hand Cream for Your Skin Protection

Herdsmen Enterprises will be showcasing their new product, PSK Protect Hand Cream at various beauty and skincare related events in 2020.

TAIPEI, TAIWAN, September 1, 2020 /EINPresswire.com/ -- To prevent COVID-19, most people use alcohol-based [hand sanitizers](#) that contain 75% alcohol to clean their hands. Due to its high volatility, it easily strips away moisture in the outer layer of skin and makes the skin dry, itchy and even allergic. In order to solve this problem, Herdsman Enterprises have decided to manufacture antibacterial moisturizing [hand cream](#) to enhance skin protection after using alcohol. The company will be showcasing their new product, PSK Protect Hand Cream at various beauty and [skincare](#) related events in 2020.

PSK Protect Hand Cream is like a pair of invisible gloves that provide integrated care to your hand all while enhancing skin protection. The product is ideal in strengthening and protecting skin from environmental hazardous substances. With its functions of fighting bacteria, soothing and brightening the skin, it is targeted to enhance the skin's protection especially during the COVID-19 pandemic. Herdsman Enterprises is dedicated to providing high-quality products through strict product examination and qualification, and sees a vast business opportunity in the US, UK, and Southeast Asia.

“
