

Expert Case Studies from the Industry's Leading Nations to be Presented at Energy from Waste 2020

SMi Group's 13th annual Energy from Waste conference will feature a range of case studies presented by experts from the industry

LONDON, UNITED KINGDOM,
September 1, 2020 /EINPresswire.com/
-- Energy from Waste 2020 will convene in London on 1st – 2nd December to explore emerging issues and challenges facing the Energy from Waste industry in 2020, with insights from key nations leading the way in working towards achieving net zero.

Interested parties should register for the conference before 30th September to save £300 with the early bird discount at: http://www.efw-event.com/EINpr5

The fundamental foundations of the Energy from Waste industry are changing, given the recent political climate and changes in governmental funding. These changes need to be addressed by exploring new strategies, technologies and concepts that can help to drive the Energy from Waste industry into a sustainable future.

With this in mind, the 2020 agenda for the <u>Energy from Waste conference</u> will feature a range of case studies presented by experts from the industry, to explore real-life examples and applications of the latest EfW technologies and concepts:

• "Case Study: Belgrade Waste PPP - Design-Build-Finance-Operate a Modern Waste Management Infrastructure in an Emerging Market"
Stephane Heddesheimer, CEO Poland, Serbia and Central Europe, Suez

- "Case Study: Energy from Waste in Poland" Jakub Bator, Member of the Management Board, Waste Thermal Treatment Plant Director, Municipal Holding Company in Krakow
- "Opportunities for CO2 Capture in the Waste-To-Energy Sector Case Study Fortum Oslo Varme's Waste-To-Energy Plant at Klemetsrud"

 Jannicke Gerner Bjerkås, Director CCS, Fortum Petroleum AS
- "Case Study: Cory Riverside Energy Update on the Proposed Integrated Energy Park" Chris Girdham, Development Director, Cory Riverside Energy
- "Case Study: Integrated Residual Municipal Waste Treatment Combining Material From Waste, Organic Recovery and Energy from Waste" Christophe Cord'Homme, Development Director, CNIM Group

The event brochure containing the full agenda and speaker line-up is available to download free from the conference website: http://www.efw-event.com/EINpr5

--END-

Energy from Waste 2020 1st – 2nd December 2020 London, United Kingdom
