“

I want to thank Bold Patents for their excellent work, specifically Maegan Harris, Christine Delajian, and Chris Mayle who without their talents and determination this would not have been possible.”

Barry Henthorn

Barry Henthorn, CEO of ReelTime, stated: “This is truly a major milestone for ReelTime. I want to thank the whole team at [Bold Patents](#) for their excellent work and specifically Maegan Harris, Christine Delajian, and Chris Mayle whom without their talents and determination this would not have been possible. I look forward to working with them in the future. Now we are free to utilize and enforce this remarkable Patent.”

Although the original technology allows any cell phone or other camera to instantaneously capture 360 X 360 Virtual Reality Video or pictures without any need for stitching, the

patent provides protection from infringement from any capturing of a plurality of images utilizing at least one mirror. This spans a wide range of industries and uses.

The Simultaneous Spherical Panorama Image and Video Capturing System (code-named the "Periramascope"), is described in the patent application as a "360-degree image and capturing system having no lenses, a single lens, or a plurality of lenses. The device directs light from a sphere surrounding the device to a single reflected aggregate image that is then transformed into a full 360 X 360 spherical image or any subset thereof..."

About Bold Patents Expertise in Patent Law: www.boldip.com - Our main focus is to help inventors and business owners secure top-quality patents on their inventions. The process of getting

a patent from the United States Patent and Trademark Office (USPTO) is called 'patent prosecution', and that is our primary focus at Bold Patents. For many inventors and emerging businesses, protecting patents (as well as other areas of intellectual property) is a big deal and often causes a lot of stress and anxiety. Our goal at Bold Patents is to take the stress and worry off your shoulders and put it squarely on ours!
