"The plot is strong, centered on a goal. Each chapter connects as though climbing a ladder to a climactic resolution. And what a climax it is. The story has one of the most unique and remembered endings I've ever read. When I reached the last chapter, I found myself re-reading the final scene several times because it left me bewildered. In sum, I did not expect it, and that's good because I felt amazement and also accomplishment." - Laptiast - ([laptiast.com](#))
