

Sternsteiger Frying Pans set to revolutionise cooking following 6 months in the making

The journey towards an excellent pan

SOLINGEN, NRW, GERMANY, September 6, 2020 /EINPresswire.com/ -- [STERNSTEIGER MoVe](#) Series frying pan will be launching on [Kickstarter](#) next week.

Featuring newly patented technology, the MoVe Series is the result of several months of commitment to creating one of the world's finest frying pans.

The Pan Series seeks to address the need for superior coatings and Ergonomic & Design capabilities in the industry.

Key details:

Space Saving

Easy removeable handle to save space and multiuse. The MoVe Series pan features a detachable, ergonomic heat resistant handle for easy storage.

Innovative technology

The brand-new TIGER -PTFE coatings utilise Squeezed Cast Technology. The base of the pan features a thicker wall and resistant special coatings, 6-7,3 mm thick theme floor been added for a perfect heat induction.

Premium 5-fold sealant special layers have been added to create ultimate non-stick properties. In addition to being PFOA free, the pan's recycled aluminium body is perfect for consistent heat distribution and is heat resistant up to 250°C.

130 degrees curved pan walls direct heat back into Pan. This improvement keeps the heat molecules trapped into the surface and less energy is therefore utilized during cooking, so food cooks more quickly and evenly.

Suitable for all heat sources

The MoVe series pan is suitable for induction, gas, electric, oven and even BBQ and camping fires.
