After coming to the realization that this world is filled with people that want to manipulate you to better serve their own interests, Frisky the Rapper wrote, produced, and performed the single, "Ain't a Fool", to share his thoughts and feelings. dream. A memorable hook from Cassie O'Meara raises the track to new heights, summarizing Frisky's message of self-reliance. Listeners should feel empowered by the upbeat, anti-hater anthem, "Ain't a Fool", and feel confident in their own dreams and abilities.

About Frisky the Rapper

Frisky's first musical inspiration was his father, a Spanish-style guitarist and vocalist. However, it was artists like Eminem and Red Hot Chili Peppers that inspired him to pursue rap and to push his career to the next level. Frisky's love of music continued in 2008, as he started playing the guitar. A few years later, he tried to pursue his career by previewing a demo in front of music producers. However, the meeting didn't go as Frisky planned, so he decided to keep music on the backburner. Instead he decided to pursue a career in stand up comedy. He has always been known by friends and loved ones as the "funny guy", and his friend had a connection in the stand-up comedy world. Under the stage name, Andy Lugo, he opened up for big acts like Joe Rogan, Dana Carvery, Dane Cook, Whitney Cummings, Alonzo Bodden, and more. While he enjoyed his time in comedy, music was always on his mind and truly in his heart. So in 2018, he decided to give music another try, as a hip-hop artist/rapper and he has never looked back.
