Our first client is a well-established construction company bidding for various contracts. They needed a fast and flexible solution that would support their growth plans. We are very happy to be able to help and finance them."

"Along with a careful evaluation of the prospective client and parties involved, we analyzed the country's legal framework and business environment and have nothing but admiration for the work being performed by all government officials that run the country in a disciplined and

organized way, with a focus on the future", said Ms. Beach. "Our company offers factoring services which include flexible financing, credit and collections support, help setting up vendor agreements, a secured supplier payment program, and other administrative services such as billing and payments reconciliation. Working hand in hand with local banks and other entities, we can help fulfill a niche that supports economic growth in Palau and the region."

"Quickpay Funding is a trail setter for the factoring industry in the USA and worldwide. We are now offering products and services to small and fast-growing companies that were formerly reserved for larger companies such as same day fundings, 24/7/365 service, supplier payments, flexible factoring programs, and live support from our 100% bilingual team". "Besides myself, our team is well represented by Palauan Citizens. We are proud to be the only factoring company in the world with a fully bilingual and bicultural staff, well versed in the Palauan language, deep customs, strong culture, and business practices", said Ms. Beach.
