

Mesh Tarps in High Demand as Work at Home Movement Encourages Renovation at Home and Businesses

New Lines of Mesh Tarps used to reduce exposure in outdoor areas impacted by High Winds and Ultra-Violet Radiation

ST. JOSEPH, MICHIGAN, UNITED STATES, September 9, 2020 /EINPresswire.com/ -- Tarps Now® has announced the addition of new lines of industrial grade [Mesh Tarps](#) that offer a wide range of uses as protective coverings around home patios, decks, thresholds, gazebos, pools, picnic areas, barns, kennels and other outdoor recreational areas.

The new lines of Mesh Tarps offered by Tarps Now® are being placed in service as Windscreens in agriculture facilities, outdoor livestock agricultural processing areas, animal feedlot areas, shipping and receiving areas, buildings, warehouses and other outdoor structures benefiting from reducing the harmful effects of extended exposure to the elements.

To meet demand, Tarps Now® custom manufactures protective mesh tarp coverings in a variety of mesh screen exposure ratings, weights, fabric grades and colors that are all engineered to provide outstanding levels of protection from high winds and intense sunlight, where extended exposure to Ultra Violet radiation is recognized to contribute to skin cancer and other ill health effects.

Tarps Now® also offers a complete line of industrial grade mesh fabrics that provide very specific levels of exposure, as well as the ability to choose from standardized sizes, as well as a high degree of customization to meet very specific applications. These include industrial strength debris netting, fire retardant mesh tarps, hurricane grade mesh tarps and other types of specialty applications.
