Some of the key manufacturers in the market, have been strategizing on continuously improvising its product offerings that cater to the requirement of target customers owing to the rise in demand for beard grooming products. In 2018, Philips one of the key players in the global beard grooming market, launched a new line of shaver under the brand name of S9000 Prestige specifically designed for men who desire for a blade-close shave, but do not wish to compromise on skin comfort. Similarly, taking in consideration on customers desire for flexibility and

convenience, several key players in the global beard grooming market have been producing and promoting beard trimmer as well as shaver in its wireless or portable formats.

Over the past couple of years, there has been a rise in demand for different types of natural and organic products. Customers seek products that are derived from natural ingredient no matter when it comes to cosmetic or food products. Taking this consumer buying perception into consideration, manufacturers consider using natural ingredient in their existing products. For instance, Maple Holistics promotes its beard oil products Assuage claiming to be processed with several key natural ingredients such as grapeseed oil, coconut oil, avocado oil, citrus limonum oil, sunflower oil among others.
