Center Valley dentists at Castle Dental providing dental implants

Dental implants remain the most popular missing tooth solution available due to their high success rate. They're not only durable and long-lasting but natural-looking.

“

Once an abutment and crown are added to the implant, it becomes difficult to differentiate between an implant and a patient's natural teeth.”

Dr. Matthew Lang

“Once an abutment and crown are added to the implant, it becomes difficult to differentiate between an implant and a patient's natural teeth,” explains Dr. Matthew Lang.

Dr. Lang and his team will walk patients through their treatment options and the supplemental procedures available to help improve the success rate of their dental implants. Included in the cost of the implants are the abutment, crown, x-rays, and supplemental procedures.

Payment plans are also available.
